

# Complete Grade Record

Posted January 15 2010

The grades are arranged by student numbers

If you did not write one of the quizzes, the midterm or the Xmas exam, your grade for that quiz/test/exam is shown as 0 (zero). Similarly, if you failed to provide a valid student number, wrote the quiz/test in a section where you are not registered, etc. your grade is shown as 0 (zero).

**See your TA if you need to discuss any aspects of the grade record.**

STNumber = Student Number

Quiz Grades = As specified in the course syllabus, I counted the best 4 of the 5 quizzes that you wrote. **The current listing shows those quizzes arranged in order from highest to lowest.** Only the first/best 4 have been used for computing your grade in the course and/or your term grade.

TTMC = Term Test MC Section (scored out of a maximum of 40)

TTSA = Term Test SA Section (scored out of a maximum of 13)

TTTot = Term Test Total Score (max = 53)

Credits = Credits earned for research participation

XTMC = Xmas exam MC section (scored out of a maximum of 70)

XTSA = Xmas exam SA section (scored out of a maximum of 20)

XTTot = Xmas exam total (max = 90)

TGrade = Term Grade (computed according to the formula given in the syllabus)

TGrade w Credit = Term Grade with credits added

**(NOTE: In Psych 101, each student was permitted to earn a maximum of 3 research participation credits. If you earned more, the number was reset to this maximum. In Psych 100, each student is permitted to earn a maximum of 6 research participation credits, and you may earn those credits at any time before the end of the winter academic term, in April 2010. If you earn more, the number will be reset to the maximum.)**

# PSYCH 100 & 101 Grade Record

ST Number	1	2	3	4	5	TTMC	TTSA	TTTot	Credits	XT.MC	XT.SA	XT.Tot	Term.Grade	Term Grade w Credits
